## Our Gift to You

Love languages have been a hot topic of conversation lately. Yet, have we truly taken the time to understand how they help us better connect with ourselves and each other? The original five—touch, words of affirmation, acts of service, quality time, and gifts—are most commonly known as the ways in which we show our love. While we may resonate with one or two, there are so many others to consider, especially at this time of year. Maybe your love language is your spouse getting your coffee order perfect, treating yourself to a luxe new bath soak post-mall marathon, or a saucy night-in complete with massage and a well-chosen candle. Regardless of how you choose to express your goodwill, friendship, and devotion this season, we're here to share the merriest must-haves so you can sit back, relax, and spread the love in any language. Happy holidays from us.

# Eat, Drink, and Glow with RMS

We asked clean beauty's fairy godmother and founder of namesake brand, Rose-Marie Swift, about her life before, during, and after the holiday season

WILD WITH DESIRE IN RMS RED

DAILY TINTED LIP BALM IN TWILIGHT LANE

"RE"EVOLVE NATURAL FINISH FOUNDATION IN 000-LIGHTEST ALABASTER

**What is your love language?** Food.

**Favorite winter drink?** Grand Marnier and hot chocolate is a secret love of mine.

**What's your go-to hostess gift?** I love to gift a little RMS. Whether that be a mini **Beauty Oil** or a lovely **Tinted Daily Lip Balm**—you really can't go wrong!

**Describe your ideal winter night in 3 words.** Snow, fireplace, and Ruby Moon (my furry pride & joy!)

**What's the most Aquarius thing about you?** My thought process, my drive for aesthetics, and how I march to the beat of my own drum.

As Rose-Marie said, Aquarians are aesthetically-driven and like to push boundaries—kind of like the **ReEvolve Natural Finish Liquid Foundation**, a skincare-infused foundation stored in sleek, refillable packaging.

**You can only have one dish from a holiday meal, which are you choosing?** Roast chicken.

**Are you planning to stay in or go out for NYE?**

I never do NYE out, I prefer to be at home.

Whether you'll be at home or are planning to head out, pack on a shade of **Eyelights Cream Eyeshadow** for an eye look that's worth celebrating.

**Who's playing you in a biopic of your life?** Silly question. There's only one Rose-Marie Swift!

**What's your current lip color obsession?** **Wild With Desire in RMS Red** always—a red lip never goes out of style.

**What's the most memorable gift you've ever received?**

A delicate string of pearls.

# Party Like It's 1999...

## One more time

Australia is one of the first countries to hit midnight, so it's fitting that we're looking to Aussie-founded brand Ere Perez for NYE makeup inspo. As our friends down-under move forward to a new year, we're throwing it back to the iconic year of 1999. It goes without saying that one of this year's biggest beauty and fashion trends was all things Y2K (and we don't see that changing with the start of a new year). So, with Destiny's Child playing in the background, Paris Hilton's carefree energy as our muse, and a newly-bought tube dress hanging in the closet, we're getting ready to pull out all the stops. Pack on the rust-hued shadow, overline your lips, swipe on the gloss, and get ready to celebrate like it's the turn of the century—but, whatever you do, keep those tweezers away from your brows!

# Screen Queens

HAILEY BIBBER

You won't need a ring light at this year's holiday shindig thanks to these social media-approved must-haves.

Cult-followed makeup brand Kosas is best known for two things: their skincare-powered makeup and their A-list fanbase including Mandy Moore, Olivia Wilde, Mindy Kaling, and the queen of glazed skin herself, Hailey Bieber.

## HAILEY'S NOT-SO-SECRET WEAPON

Bieber dubbed the brand's complexion products a fave when she shared her "lazy makeup" routine with her followers. She uses the medium-coverage **Revealer Concealer**—formulated with caffeine, peptides, and vitamin B5—under her eyes to brighten and cover up dark spots.

MINDY KALING

## REVEALER CONCEALER'S BIG SISTER

Equally creamy and hydrating, the **Revealer Skin-Improving Foundation SPF 25**, has racked up its own notable following for its flattering blurring effect. It comes in 36 shades and goes on like a second skin thanks to plumping hyaluronic acid and squalane.

OLIVIA WILDE

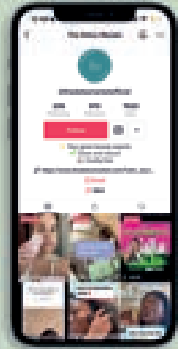

## GRWM-APPROVED TRENDSETTER

For the ultimate sign-off, make like a model walking us through your own routine and lightly dust on **Cloud Set Setting Powder**. It creates a smooth, invisible barrier that disguises imperfections and resists shine—no magazine cover shoot (or famous husband) required.

# In With the New

It's the perfect time of year to give highly-reactive skin a fresh start

Digging out dusty decorations and indulging in sugary treats doesn't inspire the most positive mindset for the new year ahead. Not to mention how your sensitive skin goes into do-not-disturb from said sugar—along with the inevitable holiday hangovers, stuffy central heating, and lack of restful sleep. Not to fret, Tata Harper's new **Superkind Refining Cleanser** could be the light at the end of your 2022 tunnel.

The creamy formula goes on like a comforting dream of dynamic ingredients that always top the nice list. Mid-winter exfoliation is no longer something to stay away from, thanks to delicate cranberry enzymes, rice powder, and lactic acid which nix flakes and dead skin cells without the irritation or fragrance. Meanwhile, wild-harvested Nordic pine and jojoba leave you with a deep clean so refreshing you'll have no choice but to face yet another year with a spotless sense of optimism.

If applying a soft gel serum every night with gold-standard clinical actives sounds like your love language, go ahead and tell your not-so-secret Santa to listen up. These three new superpower serums are about to make all of your yuletide wishes come true.

#### BEHIND THE SERUMS

Retinol, salicylic acid, and vitamin C are some of the most praised and powerful ingredients out there. The catch? All it takes is a little exposure to air, light, or heat and \*boom\* oxidation. To maintain peak potency (and, ahem, prevent pouring your beauty budget down the drain) the new **Clean-ical Formulations** encapsulate each active to ensure they stay highly stable and ready to go to work as soon as they touch your skin. Plus, every formula

features a mega-hydrating hyaluronic acid base and a boost of vitamins A, B, D, and E for top-notch results.

What will really make your skin want to indulge in these serums, is the euphoric sensorial experience they offer that many clinical-grade formulas often lack. Aromatic floral waters, including neroli, rose, and ylang ylang, relax your body and mind, rejuvenate your spirit, and melt away the stress of that end-of-year hustle.

*“We chose to use retinol, salicylic acid, and vitamin C because they have the best scientific track record of delivering the clinical-grade results we want. These serums are great gifts to give yourself or the person who’s always struggling to find a skincare formula with both clean and clinical powers.”*

# Skin's Sweet Spot

Feel-good makeup made with delicious superfoods

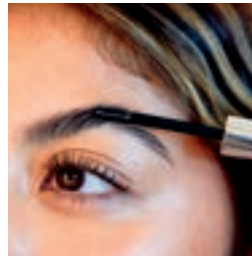

Fitglow Beauty's plant-based makeup formulas are innovative, ethically-made, and feed your skin nutrients that leave it looking and feeling sweet. Each product is carefully crafted, derm-approved, made without oils, waxes, or silicones, and tested for various climates to keep your skin happy no matter where you live.

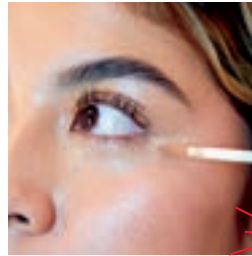

### FEAST FOR THE EYES

Fortified with bamboo, **Plum Lash Primer** gives impressive length when worn solo. If you really want to take things to new heights, layer the primer with **Vegan Good Lash+ Mascara**.

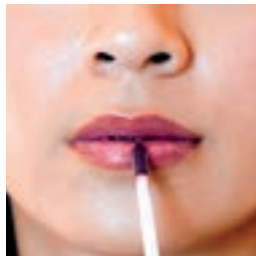

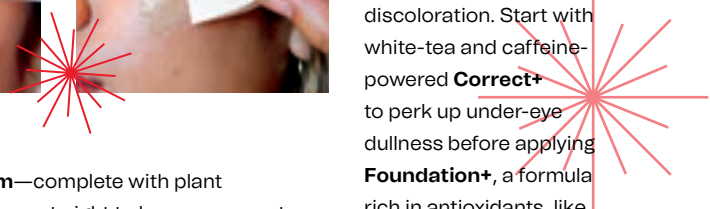

### FULL ARCHES

Rice bran wax is the star ingredient in **Plant Protein Brow Gel**, which effortlessly shapes and fills for natural-looking, face-framing brows. To get enviable thickness, brush the hairs in the opposite direction of growth before gelling them back into place.

### CRÈME DE LA COMPLEXION

The key to a cohesive complexion is all about balancing-out discoloration. Start with white-tea and caffeine-powered **Correct+** to perk up under-eye dullness before applying **Foundation+**, a formula rich in antioxidants, like vitamin C and bearberry. As for those problem spots messing with your mojo, blur them with the **Conceal+** wand using a makeup sponge or brush for a filter-worthy finish.

### SOFT SERVE LIPS

Apply **Night Lip Serum**—complete with plant ceramides and collagen—at night to leave your pout plump, moisturized, and pillowy-soft. By morning you'll be ready for your fave shade of **Lip Colour Serum**, a gorgeously pigmented serum that carries the weight during the day, with beet and pomegranate extracts, keeping dry lips smooth and soothed.

# Star Strands

This holiday season,  
we're seeking sensitive  
hair care that leaves  
locks looking shiny  
and healthy

PHOTOGRAPHY, JOSEPHINE LE. HAIR BY KYLA SALLISS.

After having a family, Innersense Organic Beauty co-founders and beauty industry pros Greg and Joanne Starkman realized their desire for living a slower and more mindful life, which included higher-quality products that felt true to them. It's an idea that certainly hits home this time of year when schedules are packed and everything feels disposable.

Two of the couple's star formulas, **True Enlightenment Scalp Scrub** and **Detox Hair Mask**, are here to make self-care more intentional. Used as a pre-shampoo exfoliation treatment, the cooling scalp scrub contains a hydrating blend of natural botanicals and Hawaiian Red salt rich in restorative volcanic clay, so you can gently cleanse your hair without the worry of irritation or sensitivity. To further remove build-up and balance

your scalp, the detoxifying mask is a five-minute miracle for tired-looking hair of all textures. Organic white vinegar, charcoal, and kaolin clay lift away impurities without stripping the hair's all-important natural oils. What's left is effortlessly softer and shinier strands ready for the spotlight.

#### Healthy Hair Must-Haves for an Added Touch

A silk pillowcase to prevent frizz and breakage while you sleep.

**Innersense Hair Love Prep Spray** to protect hair from regular heat damage.

A wide-toothed comb or wet hair brush for snaggle-free detangling.

A nourishing scalp oil like **Innersense Harmonic Treatment Oil** for an indulgent pre-shampoo head massage.

"My love languages are physical touch and acts of service. I feel so taken care of when Joanne offers to give me a shoulder massage with **Harmonic Treatment Oil**...especially after bringing me a plate of my favorite food!"

The nurturing hair ingredient beloved for centuries by Amazonian women for long, lustrous stands

Has your hair been spending a little too much quality time with your colorist? Or maybe it's in a heated relationship with your hot tools? This is your sign to give strands a holiday break of their own with indulgent Rahuá Oil.

## ETHICALLY SOURCED

The oil is extracted from local Ungurahua tree nuts by the Quechua-Achuar tribe of the Amazon.

## SPECIAL FEATURES

Its impressively small molecules allow it to absorb effortlessly into the scalp and hair shaft rather than just leaving behind a greasy coat. It also pushes pigments deeper into your strands, to keep your hair bright and vibrant between touch-ups.

# Sweet Escape

Show your S.O. some TLC by treating them to a well-curated wind-down for when the days get long (and the to-do lists get even longer).

- 1. Don't let clutter kill the mood.** Prep the bathroom by removing kids' toys and laundry, and turning off the noisy bathroom fan.
- 2. Leave a good first impression** by setting a calm vibe with candles, tea (or a glass of wine!), and maybe even a bowl of tubside berries or chocolates.
- 3. Take the at-home spa experience to the next level** with a luxurious **Crush Bath Soak** that doesn't collect at the bottom of the tub. Want to take things up a notch? Add flower petals and **Bubble Elixir** for a bath full of big, creamy bubbles—like the iconic scene in *Pretty Woman* where Julia Roberts listens to Prince in the tub.

Get that iconic Julia moment with this playlist:

*Care for You* - The Marías  
*Skin* - Dijon  
*Mrs.* - Leon Bridges

**4. Score some bonus points** by leaving a fluffy towel, plush robe, and soft slippers bath-side as a finishing touch—it'll feel like you're waiting there with a hug.

**5. Don't skimp on après-bath R&R.** Give them the space to cool down sans devices before sending them on the path from bath to bed.

TIP: Make the bed in advance with fresh sheets and a subtle mist of pillow spray.

*"My fiancé knows there is nothing I crave more than a bath after a long day. It's this act of service that makes me feel so loved!"*
